# M-SERIES AIR RING

Single  
or  
Dual Lip

Quality built utilizing  
only North American  
OEMs components!

Alpha Marathon's M-Series Air Rings with patented air flow-thru chamber incorporates a laminar flow chamber based on turbine technology. As a result, minimal turbulence is created. The M- Series air ring features one adjustment, the upper supplementary lip controlling the outer airflow. The outer adjustable supplementary lip, controls the amount of airflow giving excellent bubble stability and increased directional flow of air to the bubble.

### **STANDARD FEATURES**

- ❖ Adjustable Outer Collar Cone for increased cooling efficiency and bubble stability;
- ❖ Fixed middle lip design;
- ❖ Precision machined cast aluminium construction;
- ❖ Models available to accommodate interchangeable lipset diameters;
- ❖ Patented Low Pressure design air chamber dynamically designed to reduce heat generation;
- ❖ Magnehelic gauge;
- ❖ Temperature gauge;
- ❖ Stationary or rotating optional.
